

MasterCard® SecureCode™ Terms and Conditions

What is Mastercard Secure Code?

Mastercard SecureCode is a service which provides you with additional security when you shop online using your HSBC credit card on merchant websites which subscribe to the services of Mastercard SecureCode.

Who is Mastercard Secure Code provided by?

HSBC Bank Oman S.A.O.G provides this service to you, but we may use third party service providers to operate the service or part of it on our behalf. References to "HSBC", "we" or "us" in these Mastercard Secure Terms and Conditions mean HSBC Bank Oman S.A.O.G

What do I need in order to use Mastercard Secure Code?

In order to use Mastercard SecureCode, you must have the ability to access the internet and must pay any service fees associated with such access. In addition, you must have the equipment necessary to make such a connection to the internet, including a computer and modem or other relevant device.

You will need to register a valid mobile phone number with us to use Mastercard SecureCode. Please ensure the latest mobile phone number we have in our files is your most up-to-date number before using Mastercard SecureCode.

How do I use Mastercard Secure Code?

To prevent unauthorised use of your credit card online, Mastercard SecureCode will introduce a new security step when you make an online payment with certain merchant websites.

Every time you try to make an online payment with a registered merchant, you will be asked for your PIN.

You now will have a choice to choose between

- a) a one-time PIN to be received as an SMS on your Mobile Phone
- b) the PIN to be received in an e-mail to your registered email with HSBC,
- c) Both SMS and e-mail, to authenticate your credit card transactions.

You will then be asked each time you make an online payment, to click on a button to request a PIN either via SMS or e-mail or both. A PIN will then accordingly be sent by SMS to your mobile or e-mail or both. Please ensure before clicking on the request button that we have your up-to-date mobile number/e-mail.

The PIN we send you will be unique for each transaction and valid for 7 minutes.

If your PIN is incorrect the retailer may reject your transaction.

Do any other terms and conditions apply?

Our product terms and conditions continue to apply in addition to these Terms and Conditions; so for example, there are separate terms and conditions which apply to your credit cards.

Can I de-activate my Mastercard Secure Code registration?
